Received by the Board: November, 2025		Update: November, 2025

Background

The Division recognizes the concern represented by the transmission of pediculosis in schools and therefore encourages close communication between school staff, parents and public health nurses regarding the detection and resolution of instances of pediculosis. Care will be taken to protect the individual from undue invasion of privacy.

Procedures

1. School staff will inform the Principal regarding the detection of pediculosis. The Principal will communicate to parents both preventative and remedial procedures for dealing with instances of pediculosis.
2. The Principal and/or the Family Liaison may support the families in providing access to treatment.
